Key Questions:

- What is your current involvement with or interest in the BCBSF Internet/Intranet?
- As far as you know, what other areas of the corporation are currently engaged in using or planning to use the Internet/Intranet?
- Are there any issues and/or concerns that you have surrounding the corporate-wide use of the Internet or Intranet?
- If an Internet/Intranet Steering Committee/WEB Council was formed with the primary objective being corporate policy development, identification of business drivers and technology design and deployment, what commitment would you and/or your organization make to its attendance and active participation?
